# Parent Implementation Program (PIP)

Parents and their children growing together!

PIP is a wonderful opportunity for parents to learn new parenting strategies and for children to develop their social-emotional skills while learning new ways of expressing themselves.

## Activities

- Children participate in small group activities, while parents meet with assigned PIP staff to learn and practice new parenting strategies.
- PIP includes individual sessions and opportunities to practice new skills learned within a safe and supportive setting.
- PIP staff includes experienced parents who have completed the program with their own child and can support you as you go through the program.

## Location & Time

**Greg Rogers  
Elementary School**  
510 East Naples in Chula Vista
